## Why Germany?

Germany is facing a huge shortage of skilled manpower for quite a number of years now. There is a need throughout Germany for several thousand additional skilled workers. This demand will continue to rise in the coming years. As per Statistisches Bundesamt, 5,21,900 foreign persons have signed up for new training / apprenticeship positions in 2018, which is more than twice in number when compared to 2009, and going to increase further in coming years.

- Germany is known to have a world-class manufacturing and healthcare system which means that you will have the opportunity of training in modern infrastructure with advanced equipment.
- There are no tuition fees for most courses in Germany, which means the cost of education is next to zero.
- The vocational training courses in Germany include on-the-job training making it as good as a job with a well paid monthly stipend.
- The vocational training student is eligible to get a monthly stipend.
- After the completion of your training, you will have a great chance of getting absorbed in the same company you have completed your vocational training.

## **Ausbildung: Vocational Training in Germany**

'Ausbildung' is the German term for an Apprenticeship in various professions, a form of a vocational training program. With an 'Ausbildung' (full title: 'Berufsausbildung') you get a state-controlled degree as a skilled worker providing huge perspectives for living and working in Germany even if you are a citizen of a non-EU-country like India.

Ausbildung (also called "vocational training") is a formal educational qualification in the area of blue collar professions like sales person, painter, carpenter, nurse, or mechanic. Currently there are more than 320 professions for which you can do an apprenticeship. An Ausbildung takes 2-3 years of training in business and school and finishes with the degree of a skilled worker. This degree provides good chances for foreigners from all over the world to get a permanent work position in Germany. The system of vocational training (in German: "Berufsausbildungen") in Germany is unique: The multi-year education program has no fees and provides monthly payments.

Do you want to EARN while You LEARN?

Settle in Europe

Do you really want to settle in Europe and work in one of the most developed countries in the world?

Then, Germany offers you a perfect solution through a special program known as

# **“Ausbildung”**

1

Work in German companies as apprentices

2

No fees paid by Apprentices and instead earn monthly stipend while getting trained for a trade or professions in a training institute. The monthly remuneration ranges from at least approximately €600 gross in the first training year to at least €900 gross or more in the third training year. For some apprenticeship positions German employers pay stipend even more than €1,200 per month.

3

Currently there are more than 320 professions for which you can do an apprenticeship

4

Ausbildung takes 3-4 years of training in business and school and finishes with the degree of a skilled worker

5

Offers excellent opportunity to foreigners from all over the world to get a permanent work position in Germany

6

Possibility of obtaining further qualifications in this profession (e.g. master craftsman, Bachelor professional or Master professional)

7

Possibility of taking spouse or children along to Germany

# Ausbildung – the Facts

Over 5 lacs new apprenticeships (Ausbildung) contracts are completed every year by various companies in Germany. As per Statistisches Bundesamt, 5,21,900 foreign persons have signed up for new training / apprenticeship positions in 2018, which is more than twice in number when compared to 2009.

## AREAS where Ausbildung is Available

**Nursing & Healthcare**

**Hotels & Hospitality**

**Informatics & Programming**

**Office Management**

**Sales**

Once accepted to one of these programs as an **Azubi or Ausbildender** by any of the German companies, your training under Ausbildung will be divided into two parts:-

- 1.3 days of Practical on the job training every week with your affiliated German company where you'll be on a work placement as an apprentice.
2. 2 days of Theoretical and Conceptual training every week at the vocational training school, also known as Berufsschule in the German language, where you will be attending training classes.

## Other Important Points to Remember

Your vocational training school will conduct your exams like midterms and final exams

**Examination**

Your final Ausbildung score will include grades from your company and vocational training school

**Theory/Practical**

The company will give you grades as per your work and training school as per your performance in the exams

**Grading System**

# Ausbildung Requirements

01

## German Language Requirements

- All Vocational Training Schools use German Language for training and examination purposes
- Minimum requirement of B2 Level

10+2 grade school examination passed certificate in any specialization

## Educational Requirements

02

03

## Age Requirement

- No age limit
- Most ausbildung candidates will be in the age group of 18-26 yrs
- Nursing care applicants over 40 years of age may also apply

Curriculum Vitae with precise educational details  
well written Cover Letter  
School Leaving Certificate (original / certified copies)

## Documents Required What All You Need

04

05

## Financial Requirements

- Sufficient amount of money (863 Euros/month) for cost of living in Germany for any period prior to the start of your Ausbildung (1-3 months)
- Health insurance for at least for 1st year or for period prior to the start of your vocational training

## Why You Need These Docs ?

1

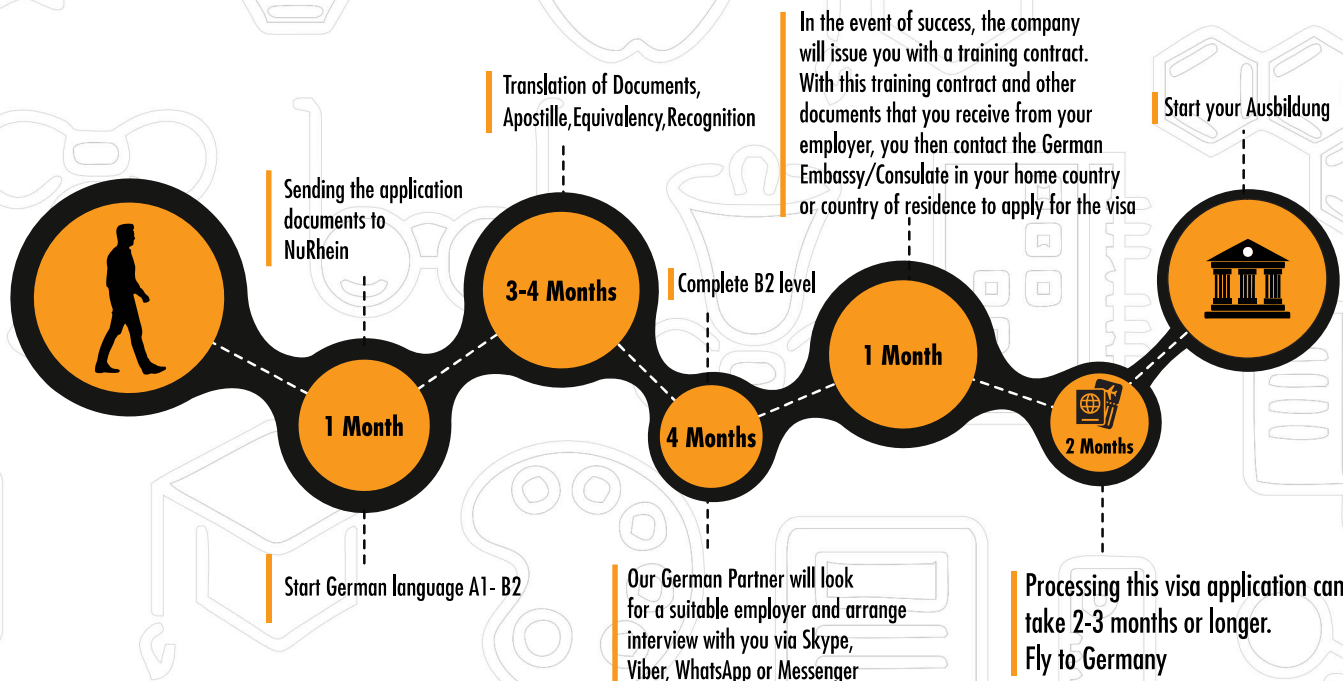

The school-leaving certificate from your home country has to correspond to the German certificate equivalent i.e. Hauptschule or Realschule

2

Easier for German companies to assess your qualifications

# Visa for Indian students

The visa for vocational training in Germany is issued to foreigners in these steps

## Steps to your Ausbildung – Vocational Training Visa

### Apprenticeship Germany Visa:

#### The Most Important Thing Is The Language

As an applicant from India, you must speak German at level B1 and prove this with a current language certificate. If you do not speak German, an application is practically without any chance of success. Our experienced German Faculty are always eager to give you the level of rigorous training needed to qualify for your Ausbildung.

### How to find a Hiring Company

#### for an Apprenticeship Germany Visa

Our partner in Germany will actively search for a training place for you and arrange a training contract after following the due process.

1

2

3

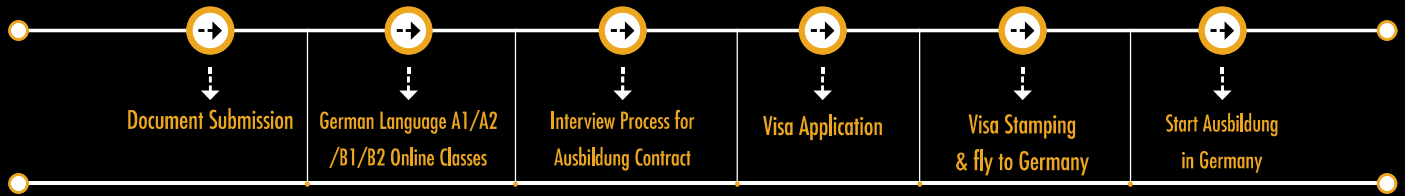

### Visa Apprenticeship - Germany:

#### The Most Important Step to Get a Training Place

Your application must include the following :-

- 1) A letter of motivation: Explain here why you are exactly interested in this training and why you are suitable for this training position
- 2) A current curriculum vitae in tabular form, preferably in Europass format
- 3) Proof of your language skills, school certificates and other documents
