About Us

Rhein Konsultant is one of the best and trusted educational consultancies in India. It is the one-stop solution for all your educational needs. We, as an educational consultancy, believe in shaping the career of our students in the best way possible. That's why our primary motive lies in assisting students to make the right choice with regard to pursuing education in German institutions. Our dedication and realistic approach to guiding students has been commended. And our reputation, which has been built upon confidence, ingenuity, truthfulness and years of experience, is equally reflected in our successful results. We only wish for a student's better future, and the better future would only be achieved when students aspire for quality education, which Germany provides without any hassle. Unfortunately, not many Indians are aware that Germany provides free education. That is why, we at Rhein Konsultant, have taken this initiative to increase awareness about education in Germany and to guide the students on the whole process and procedures.

Germany at a Glance

Germany is an ideal destination for studying Higher education at world-class level, bustling cities, beautiful landscape and plenty of people from all over the world.

Get To Know More About Germany !

Germany has the largest economy in Europe and the fourth largest in the world. Many groundbreaking inventions were developed here. Science and research have a long tradition in Germany and are highly valued. Around 13 % of people living in Germany come from other countries. Germany is cosmopolitan and tolerant.

Germany is located at the heart of Europe. More than 83 million people live here – the most populous country in the European Union. Germany is one of the European Union's founding members and works to promote closer integration among the countries of Europe. As a member of the United Nations (UN), Germany is committed to safeguarding world peace, complying with international laws, protecting human rights and maintaining and driving forward the promotion of international cooperation, in accordance with the UN Charter.

Innovation And Research

Innovative ideas have strongly shaped Germany's past and will surely continue to do so in the future. Germany has produced a long list of revolutionary inventions, such as the automobile, the airbag, X-ray technology, Aspirin, the computer, the chip card and the MP3 data compression format. In Germany, more inventions are patented than in any other country. Science and research have a long tradition in Germany and are still highly valued today. The oldest German university was founded in Heidelberg in 1386. The list of German Nobel Prize winners is quite impressive as well - over 80 Nobel Prize winners, of which there are more than 70 from the natural sciences and medicine alone, including Wilhelm Conrad Röntgen, Robert Koch, Max Planck, Albert Einstein, Christiane Nüsslein-Volhard and Harald zur Hausen.

Economic Strength

Germany's economy is the largest in Europe and the fourth largest in the world. In 2018, German companies exported goods worth more than €1.3 trillion. Most of Germany's exports are products made for the areas of electrical engineering, mechatronics, heavy machinery, the automotive industry, environmental technology, pharmaceuticals and chemicals. Consumers around the world recognise "Made in Germany" as a seal of quality. Germany is home to many trusted and renowned market leaders, such as Mercedes, BMW, Audi, Bayer, Siemens and many others. Because Germany maintains trade relations worldwide, German companies promote the deployment of international, qualified professionals.

Perks of studying in Germany

It is very clear that Germany favors development, ideas and new manifestations. It opens its kin to aspiration and motivation to grow more and improve themselves further: an environment suitable for aspiring engineering students. Free education, low living cost, ample job opportunities makes Germany an obvious choice for any international student to pursue engineering education in Germany.

No Tuition Fees

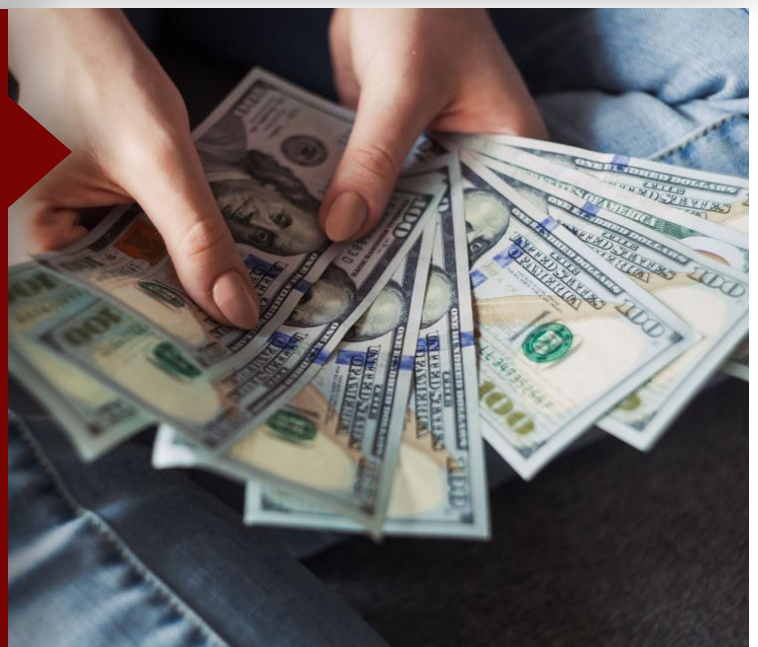

German engineering colleges or universities in Germany charge absolutely low, or, in several universities, no tuition fees even for international students. Now, this might come as a real shocker, but we assure Germany is pretty famous for offering free education to students from world over. Though, you would have to pay administrative fees of around 100 – 200 euros every year. These administrative fees which are charged by the German universities are meant to cover the student's services: costs such as bus tickets to the university, or the student cafeterias.

Although public universities in Bremen, lower Saxony, Saarland, Saxony, Saxony-Anhalt or Turingia might charge tuition fees from some students who want to pursue master's Programs with specialization different from their bachelors.

Affordable Living

Living in Germany is much lower compared to other European places. Students can limit their expenses to as low as 700 EURO per month in some of the smaller German cities.

Moreover, International students in Germany are allowed to work up to 720 hours, that amounts to a total of full 90 days in a year. Part-time jobs paying 9 to 10 Euros per hour are relatively easy to find and a great way to earn some extra cash and to gain some extra experience for international students.

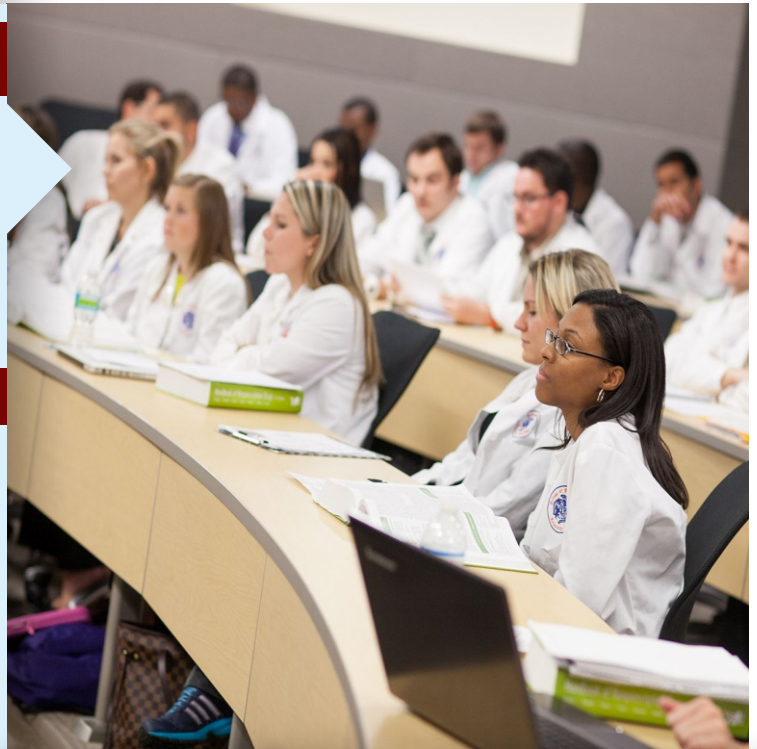

Variety Of Study Programs

Since thousands of international students go to study masters in Germany each year, universities are aware of the fact that not all of them share the same academic interests. Universities in Germany offer a broad range of masters degrees in order to enable their current and potential students to find a suitable study program for themselves.

Internships

Practice is an important part of teaching management /engineering and German Universities have modern infrastructure, world class libraries and industry associations that ensures internship opportunities to most students. These internship opportunities provide suitable jobs to students even before they complete their studies.

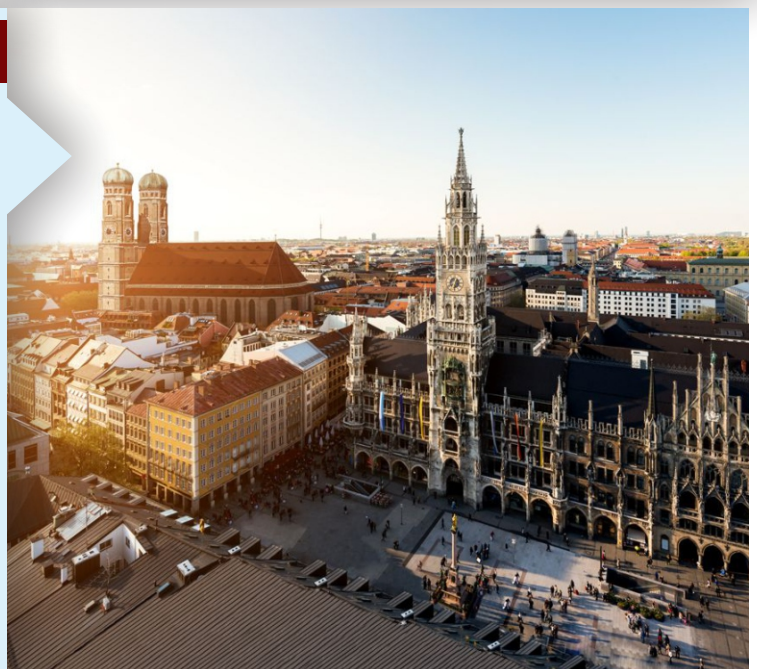

Availability Of Quality Jobs after Masters

Since the economy in Germany is primarily driven by the manufacturing and services sectors, Management and Engineering careers are available in plenty. In fact, since most German companies are involved in advanced and applied research, Germany always needs students who major in science, management or technology. According to recent statistics, Germany has the second highest number of management/engineering workers among all employees in the EU. Foreigners are allowed to live and work in Germany and on average, salaries for experts are around 46,126 Euros per year.

Experience Europe

German cities such as Munich, Berlin, Hamburg are consistently ranked among the most liveable cities in the world. Big cities in Germany are also, in general, safer than those in the USA, Canada, or any other European country. Since Germany is located in the heart of Europe, it is easy to travel to a lot of other European countries, such as Austria, France or Belgium.

According to the OECD statistics, Germany also ranks above the average in education and skills, work-life balance, jobs and earnings, environmental quality, social connections, personal security and well-being. So what are you waiting for? Start searching for masters degrees and prepare for a successful career in the masters and Technology field.

The Indian And German Education Systems

Parameters	Education System In India	Education system in Germany
Option To Switch	Students cannot switch their major subjects while their course is ongoing.	Students have the opportunity to switch subjects.
Education Approach	The Indian education system follows the traditional theoretical method in education.	The German education system follows the modern practical approach to education.
Research Initiatives	Due to limited research funds, research initiatives in Indian education are restricted.	Research in German universities is funded by leading organisations such as Microsoft and Google, leading to a plethora of research initiatives.
Curriculum	Curriculum in this system is updated after a long period of time. However, this is slowly changing. In few cases, the curriculum is regularly updated.	Curriculum in this system is updated every few years to keep up with the current trends.
Exposure	India has not yet been able to internationalize education in order to attract students from various countries to choose courses offered by Indian Universities.	German Universities have a mixed group of students coming from various countries. Therefore, a student gets better exposure.
Course Options	Indian universities and colleges provide limited courses to choose from to the students.	German universities provide multiple courses and specialisations to students.
Job Opportunities	The job opportunities provided by Indian Universities are limited to top educational institutes.	German Universities provide excellent job opportunities for students.
Funds	Pursuing education form Foreign country is always expensive as the cost of living, food, travel, etc get added to the overall expenditure.	Pursuing education form Germany is affordable.
Return of Investment (ROI)	ROI of Indian Universities is conditional and depends upon the college you are going to join.	ROI of German universities is good. It gives a kick start to one's career.
Scholarships	Indian Universities have limited scholarships.	German Universities provide numerous scholarships to international students. Apart from that, students can also take part in work-study programmes.

Let's Know The Rankings

GERMANY	INDIA
49 Technical University of Munich	155 Indian Institute of Science
59 Ludwig-Maximilian's-Universität München	172 Indian Institute of Technology Bombay (IITB)
65 Ruprecht-Karl's-Universität Heidelberg	174 Indian Institute of Technology Delhi (IITD)
118 Freie University Berlin	250 Indian Institute of Technology Madras (IITM)
131 Humboldt-Universität zu Berlin	264 Indian Institute of Technology Kanpur (IITK)

German Language

Work - People with B1 level German proficiency and an EU Blue card are eligible for “permanent right of residence” after just 21 months, compared to 33 months otherwise. The Blue Card is a “premium version” of the work permit, same as the US Green Card.

Local Interaction - To integrate yourself with the place, say going to the doctor, medicine shop, grocery stores, hair-cut, Internet connection, government offices and other such general scenarios you do need to have some German knowledge.

Ease Of Stay - Even in an English curriculum, there will be some instructions and information that will be in German. You will definitely feel better, if you are able to make sense out of those communications, because most of these might be important. Like - a job opportunity, an important announcement regarding semester fees payment, student union announcements, etc.

Studies - Ability to read the contents of the groceries you buy and also understand the offer announcements that are made every now and then. Ability to navigate through roads and shops. Understand the sign posts and general instructions at public places.

APS

The Academic Evaluation Centre (APS India) is a service provider of the Science section of the Embassy of the Federal Republic of Germany, New Delhi in cooperation with the German Academic Exchange Service (DAAD).

APS was first established in China in 2001, followed by Vietnam in 2007 and now in India in 2022. APS India is the gateway to German universities for applicants with Indian academic qualifications.

They facilitate a hassle-free admissions process for Indian students to German universities by authenticating their documents.

The successful completion of document verification allows APS India to issue a certificate which is a pre-requisite for the visa application when applying to study in Germany.

With an APS India certificate in hand, applicants can prove the authenticity of their academic documents as well as their eligibility for studies in German universities.

They offer candidates with Indian academic records an easy and transparent verification procedure and thereby assist in a swift, uniform and uncomplicated visa application process

As of November 1st 2022 all students holding Indian scholastic or academic records who wish to pursue Studienkolleg, Bachelor or Master studies in Germany will have to submit an APS verification certificate during their visa application. Students who are awarded a scholarship paid for by European funds and Ph.D. applicants whose thesis supervisor does not require an APS certificate for enrollment are exempted from the verification process.

Since APS only verifies Indian scholastic and academic records, students who are holding degrees from international schools (IB, A-Levels, etc.) or international universities may also apply directly for a student visa.

APS does not impose any language requirements on the candidates for the verification process. If language certificates are submitted on a voluntary basis, APS will check their formal authenticity. During the subsequent visa application, the visa section will reserve the right to ask candidates to submit language certificates according to the requirements of the admitting university. For further information, please refer to the visa leaflet of the German missions in India.

As of January 1st 2023, all students who have not yet graduated with a Bachelors degree in India and who wish to apply for undergraduate studies (Studienkolleg and/or Bachelor) have to submit a TestAS score. Students who have passed both JEE Main and Advanced as well as students applying for a Master's program who have already completed a Bachelor's in India are exempted from the TestAS requirement.

Application Procedure:

- 1.** Register online at www.aps-india.de Print and sign the completed application form. Kindly ensure that the entered data is correct, and that the form is personally signed by the applicant. Incomplete and incorrect information will invalidate your application.
- 2.** Transfer the APS verification fee of 18,000/- INR to the APS bank account or do an online payment through the CCAvenue portal during registration (NON-REFUNDABLE)
- 3.** Submit the required documents, including the printed and signed application form via courier to APS India.
- 4.** Document verification will be conducted by APS India. Only complete applications will be processed.
- 5.** On completion of the document verification, your online profile will be updated with a verification result. Successful candidates will receive a digital APS certificate via email.
- 6.** Successful candidates may apply for their student visa through VFS.

Important information:

Document and attested translation:

In case the documents are not in English, we request you to attach a notarized English translation of the document. Documents that are already in English need not be notarized.

Documents:

Please make sure to download the student authorization letter from the "Checklists" section and include it to your application. Both student authorization letter and application form need to be signed by the applicant in person. Complying with this will help facilitate the verification process!-

- 1.** Legible A4 sized coloured photocopies of all original documents.
- 2.** Both sides of all the documents must be photocopied
- 3.** A candidate can submit the required documents via courier. Our office address is Academic Evaluation Centre, Gate No. 3, DLTA Complex, R.K. Khanna Stadium, 1 Africa Avenue, 110029 New Delhi, India

Bachelor's Checklist:

Application after Class XII

1. Printed and duly signed application form with passport size photo (not older than 6 months).
2. Copy of APS fee transfer receipt.
3. Copy of Aadhaar Card with linked mobile number.
4. Copy of passport. (1st and last page).
5. Copy of Class X Marksheet and Certificate.
6. Copy of Class XII Marksheet and Certificate. In case the certificate has not yet been issued, the Provisional Certificate issued by the school will be accepted (Not older than 3 months).
7. Copy of TestAS Results (Core and Subject specific).

Applicants with Bachelor's / Master's Degree

1. Printed and duly signed application form with passport size photo (not older than 6 months)
2. Copy of APS fee transfer receipt.
3. Copy of Aadhaar card with linked mobile number.
4. Copy of passport (1st and last page)
5. Copy of Class X Marksheet and Certificate
6. Copy of Class XII Marksheet and certificate.
7. Copy of Marksheets of all semesters.
8. Copy of the bachelor degree. In case the degree has not yet been issued, the provisional certificate issued by the College will be accepted. (Not older than 1 year)
9. Copy of the Master's degree and Transcripts. (if applicable)

APS Address:

Gate No. 3, DLTA Complex, R.K. Khanna Stadium,
1 Africa Avenue, 110029 New Delhi, India

Which Subject-Specific Module should I choose?

The university you have decided to study at will determine which Subject-Specific Module you will be required to take according to your chosen course of studies.

Below you will find some examples of which courses may well suit which Subject-Specific Module.

Humanities, Cultural Studies and Social Sciences

- German language and literature
- Linguistics
- Sociology
- Politics
- Philosophy
- Historical Science
- Law

Mathematics, Computer Science and Natural Sciences

- Mathematics
- Chemistry
- Physics
- Computer Science
- Psychology
- Pharmacology
- Medicine

Engineering

- Mechanical Engineering
- Electrical Engineering
- Mechatronics
- Civil Engineering
- Automotive Engineering
- Environmental Engineering
- Chemical Engineering

Economics

- Business Economics
- Political Economics
- Management
- Business Management
- Education Management
- Energy and Water Management

Blocked Account

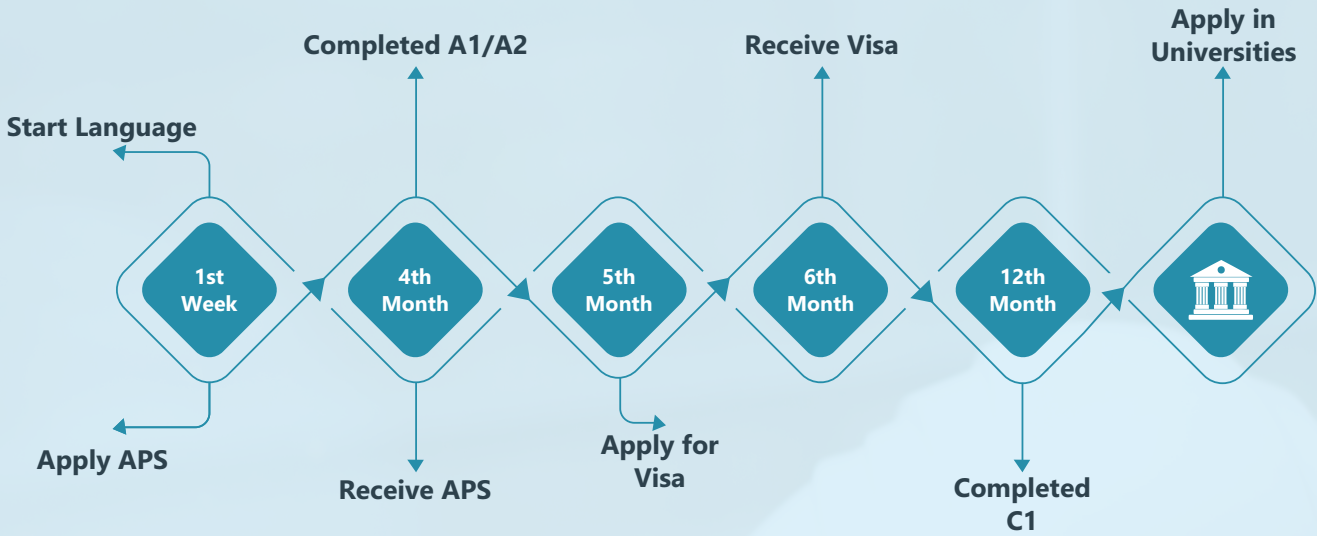

A Blocked Account is a special account in the Federal Republic of Germany which serves foreign students as evidence of sufficiency of their financial means for their stay period. It is made mandatory by German embassy for all type of travelers who wish to relocate to Germany for various purposes like education, job etc. The account has to be opened at a German bank while you are still at your home country preparing your documents. currently approx 934 Euros have to be blocked for every month that you are planning to stay in Germany.

Blocked Account -

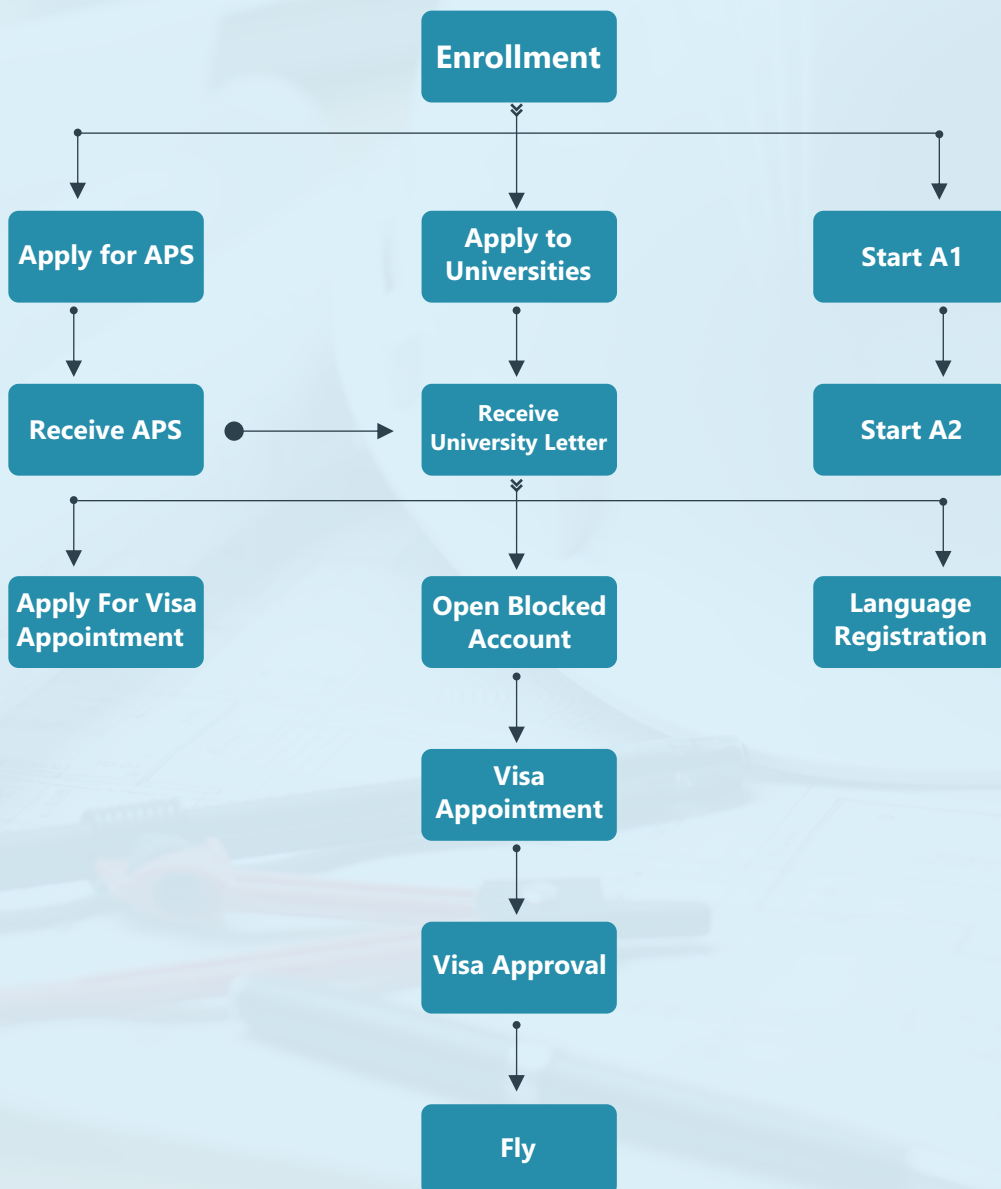

It is a financial proof to get a student visa for Germany. This implies that the student needs to be in the position to secure living expenses for the period of studies in Germany. At the time of application for a visa, the students need to prove a monthly allowance of at least € 934.00 for the first academic year of the studies (in total € 11,208.00). The easiest way to do so is by opening a blocked account in Germany. A blocked account is a special form of bank account, which is used by students to demonstrate proof of sufficient financial means to afford their studies in Germany. With our blocked account partner 'REMITX', students can open the account completely online and in the fastest way possible. Duration and blocking amounts can be set according to the requirements of embassies or local foreign authorities. Money which is deposited in this account cannot be withdrawn until the arrival in Germany to secure financial stability.

Services in India

1,25,000

+18% (GST)

- **Reliable and Honest Counselling:**
Personalized counseling sessions conducted by experienced professionals who provide reliable and honest guidance throughout your university application and visa process. They offer support, answer your queries, and help you make informed decisions.
- **University Selection:**
Assistance in choosing the right university based on your academic goals, preferences, and eligibility criteria. This involves providing guidance, information, and resources to help you make an informed decision.
- **University Conditional Letter:**
Support in obtaining a conditional letter of acceptance from the chosen university. This includes assisting with the application process, reviewing and refining application materials, and coordinating with the university on your behalf.
- **DHL Courier Services:**
Assistance in utilizing DHL courier services for important document delivery. This involves guidance on packaging, document tracking, and ensuring the safe and timely transportation of your application materials or other required documents.
- **Assistance in Pursuing German Language A1 and A2 Levels:**
Support in finding language institutes or online resources for studying and preparing for the German language proficiency exams at the A1 and A2 levels. This includes recommending study materials, practice tests, and providing guidance on exam registration.
- **TestAs Preparation:**
Guidance and support in preparing for the TestAS (Test für Ausländische Studierende) examination. Assistance includes providing study materials, practice tests, and strategies to help you perform well on the exam.
- **APS Certificate Application & Courier:**
Assistance in the application process for the APS (Akademische Prüfstelle) certificate. This service involves guiding you through the application requirements, assisting with document preparation, and coordinating the courier services for submitting the necessary documents to the APS office.
- **Language Institute Letter from Germany:**
Assistance in obtaining an acceptance letter from a recognized language institute in Germany. This letter serves as proof of enrollment in a language course and is often required for visa applications.
- **Opening Blocked Account:**
Guidance and support in opening a blocked account, which is a financial requirement for student visas in Germany. This involves providing information about the process, required documentation, and assistance in choosing a suitable bank.
- **Perfect Visa Application Documentations:**
Assistance in preparing all necessary documents for your visa application, ensuring they meet the requirements and are complete and accurate. This involves reviewing your documents, offering suggestions for improvements, and ensuring they are well-organized and presented.
- **Statement of Purpose (SOP):**
